

# ROLLER DOOR

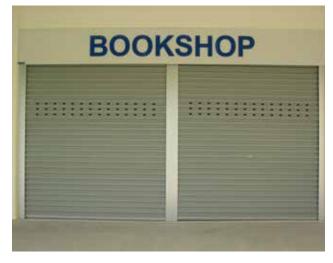

#### Introduction

Under our Delta Tech Group, Roller Door Model operates by DC motor connected to our Intelligent Control Box in which it runs faster than most traditional roller shutter. There are nylon strips integrated at the side edge of the curtain and safety rubber seal on the bottom that gives a swift, soft, safe and smooth operation

RD is commonly installed in places such as schools, industrials, garage, stalls and HDB compromising both security and convenience.

RDA	Motorised RD
RDM	Manual RD

#### **Distinctive Features**

Fast Speed^

Using DC motor drive and planetary gear system, our RD opens and closes at 0.2m/s\*, greatly reducing waiting time. This drive system also increases the usage frequency of the RD, more than 30# times daily.

Zincalume

The curtain of the RD is formed by corrugated Zincalume.

The Zincalume is a special alloy comprising zinc and aluminum with a center steel core.

Ensuring that the curtain is strong, flexible and excellent corrosion resistance.

Silent Operation

By installing Nylon-polyglide along the side edges of the curtain, the noise during operation is greatly reduced. At the same time, the Nylon-polyglide ensures smooth movement during operation.

Safe^

Our RD has pre-installed safety edge feature where the curtain will automatically stop and reverse if it encounters an obstruction during closing. To enhance safety further, our RD is also equipped with soft start and stop where the curtain will speed up then slows down during operation. All controls signals are low DC voltages.

Spring Balance

The weight of RD zincalume curtain is balance and countered by using high performance spring. The spring balancing reduces the strain on the motor drive.

Hand chain can also be integrated for high RD.

Intelligent System(IS)^

IS has a control box system Brake Renagement Device that stops the shutter once it touches the ground, this will protect the shutter and the ground from any damages.

## Material & Finish Details

	Part	Material	Coating	
Slat 0.53mm Thick Zincalume Side Guide 1.8mm Thick Aluminium Bottom Bar Mild Steel		0.53mm Thick Zincalume	Colourbond  Natural/Brown Anodized, Powder Coated, Fluorocarbon	
		1.8mm Thick Aluminium		
		Mild Steel	Colourbond	
	Shutterhood Cover	Mild Steel, SUS304	Electro-galvanized, Colourbond, Powder Coated, Fluorocarbon	

<sup>^</sup> Motorised Model Only

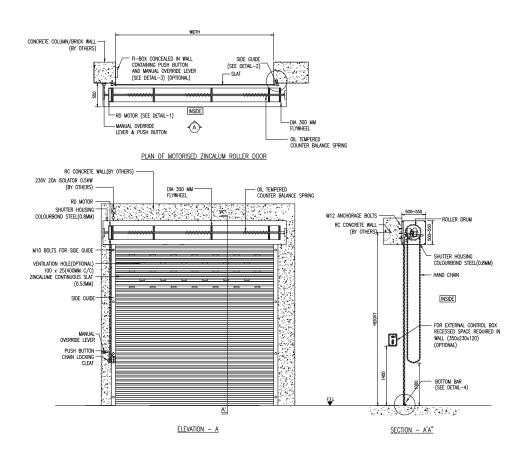

<sup>\*</sup> Top speed is approx.; based on door dimensions of 3000mm by 3000mm.

<sup>\*</sup> Usage frequency cycle includes opening & closing as 1 cycle; based on door dimensions of 3000mm by 3000mm with proper maintenance.

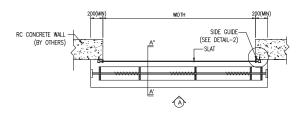

<sup>\*</sup>Refer to Oxyplast Chart for powder coating colour option

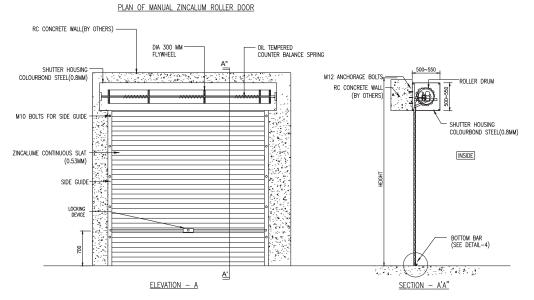

<sup>\*</sup>Refer to DNT Chart for fluorocarbon coating colour option

#### **Motorised Roller Door Components**

#### **Manual Roller Door Components**

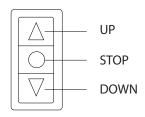

### Push Button (External)

1. To Open: Press up once and release

2. To Close: Press down once and release, door will close after 1 minute

3. To Stop: Press stop once and release

#### **Electrical Push Button**

#### Push Button (Internal)

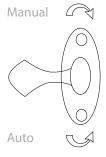

1. To Open: Press up once and release2. To Close: Press down once and release

3. To Stop: Press stop once and release

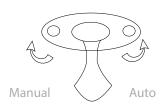

1. Only switch to manual operation when power off or motor fail

2. Use manual handchain to open or close shutter

Manual Lever (Ext)

#### **Shutter Specifications**

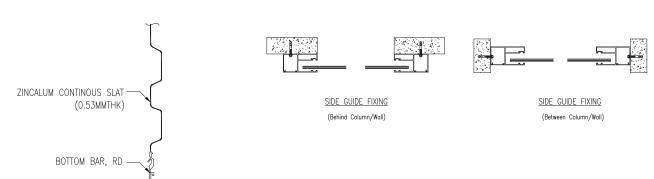

Item	Mod	del	Motorised	Manual
N4-	view or Circula Consu		6000mm (Width)	3000mm (Width)
Maximum Single Span			6000mm (Height)	3000mm (Height)
	Side Guide		W55 x L103 (1.8mm thick)	
Main	Shutterhood		500~55	0
Body	Curtain		0.53mm	
-	Bottom Bar		"L" Shape	
Motor	Power		230V , 13amp , 0.5Kw	
	Speed		0.2m/s	

<sup>\*</sup>All dimensions in mm.

#### Slat Profile

PVC WEATHER SEAL-

### **Side Guide Fixing Position**

# Components

#### **Basic Components**

Push Button Box Electrically operate (Mechanical)

Control Box Intelligently Operation

Motor Roller door motor operator

#### Optional Components

UPS For emergency back-up battery power

Remote Handheld controller to operate shutter

Motor Cover Protection Cover for motor

BMS
To monitor the shutter position (open/ close/ fault) from BCC/FCC

Others

Wind Lock
Explosion Proof

Remote Interfacing System

#### Remarks:

- Due to the properties of printing ink, the colour of the product may differ from the actual color.
- The specifications are subject to change without notice for improvements.
- All items are subjected to Delta Tech Group Terms & Conditions (available at our website, http://www.deltatech.com.sg)
- Not all components are applicable
